

Application for Submitting an Animal Management Plan and Implementation Plan

For Office use only

EPB 420 Sep/09

In accordance with "Animal Management at Solid Waste Disposal Sites (EPB 409)", it is hereby submitted that I/we have assessed the risk associated with predatory animals accessing my/our waste disposal ground (WDG). The following information is submitted in this regard:

A. General

(a) Name of Operator/Owner: _____
(City, Town, Village, Rural Municipality or Company name)

(b) Contact Details: _____

[Provide mailing address with postal code, telephone number, e-mail address (if any)]

(c) Type of facility: Landfill Transfer Station Collection bins

(d) Permit number: _____ valid till _____
(If no permit exists, please submit your application for 'Permit to operate a Waste Disposal ground (WDG)' along with this plan)

B. Assessment of risk

(a) Could your WDG be habituated by large predatory animals and warrant implementing measures to mitigate such risk? Yes No

If you answered **Yes to Part B**, please complete Part C below, including the implementation dates.

(Note: The Saskatchewan Ministry of Environment recognizes that waste disposal facilities, particularly in northern Saskatchewan, may pose imminent safety concerns from the attraction of predators and will always require site owners to ensure all reasonable suitable measures are undertaken to mitigate risk from predators accessing a WDG)

C. Measures undertaken to mitigate such risk

(a) Information/training to public about safety issues at and/or near WDG provided through:
(Please provide details indicating how often this has been provided to the public)

Newspaper _____
Date: _____

Radio _____
Date: _____

Brochures/Pamphlets/Leaflets/Signs _____
Date: _____

Pubic meetings _____
Date: _____

Others (Please specify) _____
Date: _____

(b) Methods used to prevent predator's attraction to readily available food source and access to WDG. (Provide details as to the effectiveness of method(s) for its intended use)

Barrier/fence around the WDG with gated/controlled entry. (Provide details e.g. the type of barrier, height, its appropriateness for keeping predators out, and if not yet erected, the date you expect it to be in place)

Minimizing/limiting the working face (exposed garbage) at the landfill (Provide operational details including frequency of providing cover and compaction)

Animal proof containers and when installed, or when expected to be installed

Others (Please specify) _____

(c) On site methods of helping to protect and notify people from predatory animal encounters. (Provide details as to the effectiveness of method(s) for its intended use)

Automated gate control system _____

Manual guarding of the site during operational hours _____

Warning signs posted at the facility for possible presence of the predators _____

Signage at the facility providing information for reporting predatory animals _____

This is to certify that I/we have fully assessed the risk of predators accessing my/our waste disposal ground and that I/we have implemented adequate measures as mentioned above to provide safety of people who use my/our facility for waste disposal.

(Signature of Owner/Operator)

(Date)
