

Precautionary Drinking Water Advisory

This Advisory applies to all residences on Cardinal Street in the Village of Prelate and is effective:
4:00 pm Sunday, March 3, 2019.

Pursuant to clause 36(1)(a) of *The Environmental Management and Protection Act, 2010* this Precautionary Drinking Water Advisory is issued due to a water main break/repair and depressurization of the section of distribution system; therefore, the safety of the affected portion of the drinking water supply cannot be ensured at all times. Pursuant to Clause 36(1)(b) of *The Environmental Management and Protection Act, 2010*, consumers must be notified to:

- (a) boil all water used for drinking purposes for at least one (1) minute, at a rolling boil, prior to use;
- (b) boil water to be used for other activities where it may be ingested, including:
 - (i) brushing teeth or soaking false teeth;
 - (ii) washing fruits and vegetables;
 - (iii) food or drink that will not be subsequently heated; and
 - (iv) ice cubes;
- (c) not use the water for washing dishes, unless the water has been boiled or the dishes are sanitized in another fashion. Washed dishes and utensils can be soaked in a bleach water solution (approximately 2 tablespoons of bleach per gallon or 10 mL of bleach per litre of water) for at least 2 minutes, after being washed, to kill any bacteria that may be present.
Note: Do not mix bleach with soaps or detergents.
- (d) not drink from any public drinking fountains supplied with water from the public water supply;
- (e) ensure that younger children and infants are sponge bathed;
- (f) use an alternative water source known to be safe, if they do not wish to boil the water; and
- (g) consult a physician, before using the water, if you have cuts or rashes that are severe.

Under most circumstances, there is no need to boil water used for other household purposes. Adults, adolescents, and older children may shower, bathe, or wash using tap water, but should avoid swallowing the water. Laundry may be washed in tap water, either by hand or by machine.

This Advisory is effective as of the date and time shown above, and will not be lifted until the water supply is determined to be completely safe.
