

Precautionary Drinking Water Advisories (PDWA) and Emergency Boil Water Orders (EBWO) Currently in Effect for Waterworks that are Regulated by the Saskatchewan Ministry of Environment

NOTICE: While Saskatchewan Ministry of Environment (Environment) makes every effort to post and remove listings of Precautionary Drinking Water Advisories (PDWA) and Emergency Boil Water Orders (EBWO) in a timely manner, from time to time circumstances may arise that prevent timely revisions to this website. In the event consumers require additional information regarding application of a PDWA or EBWO, they are advised to contact their water supplier or Environment as outlined on the site-specific PDWA or EBWO (see: http://www.saskh2o.ca/pdwa_ebwo.asp). If questions arise after hours regarding a PDWA or EBWO, an Environment Environmental Project Officer may be reached by calling 1-800-667-7525.

Issue Date	Title	Community	Health Region	PDWA	EBWO	Urgency	Reasons
2009-03-25	Precautionary Drinking Water Advisory - Village of Abernethy	ABERNETHY	No. 4 - Regina Qu'Appelle Regional Health Authority	1		Yellow: Important	Operational: More than one reason Quality: Unacceptable turbidity or particle counts in treated water

Details: Precautionary Drinking Water Advisory is issued due to chemical feed pump issues and turbidity is above regulations to enter the distribution system and therefore the safety of Abernethy's drinking water supply cannot be ensured at all times.

2009-06-08	PDWA - Arborfield, Town of - Depressurization	ARBORFIELD	Kelsey Trail Regional Health Authority	1		Green: Non-critical	Operational: Planned system maintenance Quality: Line break or pressure loss in distribution system
------------	---	------------	--	---	--	---------------------	--

Details: Planned maintenance

Issue Date	Title	Community	Health Region	PDWA	EBWO	Urgency	Reasons
2009-07-15	NORTHERN VILLAGE OF COLE BAY - PDWA, insufficient raw water flow	COLE BAY	Keewatin Yatthe Regional Health Authority	1		Yellow: Important	Operational: Treatment / distribution equipment failure or damage Quality: Insufficient Quantity

Details: Cole Bay is experiencing low raw water flow from the source to the WTP. The operator suspects the intake screen is clogged and does not know how to backflush it and does not currently have resources to clean it. Low raw water flow forces the operator to shut down the WTP for periods of time, and has the potential to result in distribution system depressurization.

2009-07-27	TOWN OF CREIGHTON, SK - PDWA, System depressurization	CREIGHTON	Mamawetan Churchill River Regional Health Authority	1		Green: Non-critical	Operational: Planned system maintenance Quality: Other - see details below
------------	---	-----------	---	---	--	---------------------	---

Details: Planned system maintenance resulting in temporary service connections and unknown bacteriological quality in the area effected. Effecting Main Street between the four way stop on Creighton Ave to Fourth Avenue.

Issue Date	Title	Community	Health Region	PDWA	EBWO	Urgency	Reasons
2009-07-15	PDWA issued to the Village of Elstow due to possible contamination of the storage reservoir	ELSTOW	Saskatoon Regional Health Authority	1		Yellow: Important	Operational: Treatment / distribution equipment failure or damage Quality: Significant deterioration of source water quality due to environmental conditions

Details: The Village of Elstow's storage reservoir flooded and overflowed, and then water leaked back into the reservoir after coming into contact with the ground and other outside elements. This PDWA will be in effect until the reservoir is drained, disinfected, and flushed, as well as the entire distribution system flushed. The reservoir access must be raised and the emergency float switch repaired.

2009-08-04	Town of Foam Lake PDWA-Planned System Maintenance	FOAM LAKE	Sunrise Regional Health Authority	1		Yellow: Important	Operational: Planned system maintenance Quality: Line break or pressure loss in distribution system
------------	---	-----------	-----------------------------------	---	--	-------------------	--

Details: PDWA issued for planned valve replacement which will result in a the system losing pressure.

2009-07-20	PDWA - Hamlet of Gronlid - Planned Maintenance	GRONLID	Kelsey Trail Regional Health Authority	1		Yellow: Important	Operational: Planned system maintenance Quality: Line break or pressure loss in distribution system

Details: Water meter replacement

2009-08-04	Town of La Ronge - PDWA due to Elevated Turbidity	LA RONGE	Mamawetan Churchill River Regional Health Authority	1		Green: Non-critical	Operational: Does not meet minimum treatment/design requirements Quality: Unacceptable turbidity or particle counts in treated water
------------	---	----------	---	---	--	---------------------	---

Details: - The La Ronge Water Treatment Plant is currently experiencing difficulties achieving satisfactory effluent turbidity results from both filters. The PDWA will remain effect until such time the problem is corrected. Bacti sampling to remove the PDWA will be done once the WTP has proven it has stabilized through filter's 1 & 2 satisfactory turbidity recorded results. Three consecutive days of satisfactory turbidity results will be considered stabilized. Water Treatment Operator to notify EPO when water plant has stabilized and EPO will then request bacti samples to be submitted.

2009-08-04	Town of Wilkie PDWA - Planned System Maintenance	WILKIE	Prairie North Regional Health Authority	1		Green: Non-critical	Operational: Planned system maintenance Quality: Other - see details below
------------	--	--------	---	---	--	---------------------	---

Details: Precautionary Drinking Water Advisory

This Advisory applies to residents and users of the The Town of Wilkie Waterworks on the 300, 400, and 500 Blocks of 3rd Street East and is effective immediately.

Pursuant to clause 32(1)(a) of The Environmental Management and Protection Act 2002 this Precautionary Drinking Water Advisory is issued due to a water line replacement, extended normal water supply interruption, and unknown bacteriological water quality in the affected area distribution system , therefore the safety of the specific locations drinking water supply cannot be ensured at all times. Therefore, pursuant to Clause 32(1) (b) of The Environmental Management and Protection Act 2002, consumers must be notified to:

Precautionary Drinking Water Advisories (PDWA) and Emergency Boil Water Orders (EBWO) Currently in Effect for Waterworks that are Regulated by the Saskatchewan Ministry of Environment
